processes

Reminder – deadline for new proposals to KME- programme 2010-2013

We are now close to half-time of the KME programme period 2010-2013 (April 14, 2012).

In the November board meeting the KME board decided that Elforsk must send out a reminder to companies who still have budget left in the programme and invite them to come in with new proposals **at latest 4 weeks before next meeting period in March 21-22.**

This means that the deadline for new proposal to KME is February 22 2012.

The companies with no plans to use the planned in kind and cash industry budget will be asked to state this for Elforsk as soon as possible. The unused budget is an opportunity for other companies to contribute with in kinds or cash money and get matching state money from Elforsk.

We look forward to your new proposals.

Best Regards
Elforsk AB
